On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

### What are CIP Codes?

☐

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

### What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

- ☒ Yes
- ☐ No

☐ No teachers prepared in academic year 2021-22

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances.  [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

## Program Assurances

**Note:** This section is preloaded from the prior year’s IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

☒ Yes

☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

☒ Yes

☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

☒ Yes

☐ No

☐ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

☒ Yes

☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

☒ Yes

☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

☒ Yes

☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

☒ Yes

☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

The McDowell Institute for Teacher Excellence in Positive Behavior Support, a unique grant-funded entity that focuses on Social Emotional Learning, was housed in the College of Education at Bloomsburg University for over 10 years. The Institute is now a resource to all three campuses of the new Commonwealth University. The McDowell Institute is designed to equip educators with strategies, practices, and experiences to effectively support the academic, social, and emotional growth of all students. The Institute provides all teacher candidates with social-emotional training that is needed by today’s educators, and is required by our state and local agencies. This training includes “Youth Mental Health First Aid Training” as well as modules on social emotional learning topics that are integrated in coursework throughout the curriculum. The modules include topics such as trauma, adverse childhood experiences, rapport as a protective factor, building resiliency, positive reinforcement, bully prevention, and general social-emotional learning.

All teacher preparation candidates in Pennsylvania are required to take nine credits of special education coursework to enable them to effectively teach students with disabilities in inclusive settings. Additionally, all teacher preparation candidates must take at least one course focused on teaching English Language Learners. Students also have access to a Special Education minor, an Autism endorsement, a Social-Emotional Learning endorsement, and ESL add-on certificate to further build their teaching skills.

# Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

## Report Progress on Last Year’s Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

The Bloomsburg University College of Education plans to increase enrollment by five in the Mathematics teacher preparation programs. . The COE is also currently reviewing all secondary programs, including mathematics with content faculty to continue to improve programs. The University continues to focus on student retention.

3. Did your program meet the goal?

- ☐ Yes
- ☒ No

4. Description of strategies used to achieve goal, if applicable:

Enrollment did increase by 2.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

In July 2022, Bloomsburg University of PA integrated with Lock Haven University of PA and Mansfield University of PA to form the Commonwealth University of Pennsylvania. The Commonwealth University of PA remains accredited by the Middle States Commission of Higher Education and the Council for the Accreditation of Educator Preparation and now includes Mathematics Education programs. During the 2022-2023 academic year, the faculty reviewed and revised all curricula. The purpose of this was to develop updated programs for all students. The new programs leading to mathematics teacher certification (Secondary Math, Middle-Level Math, and graduate-level initial secondary certifications) will now be offered at all three campuses which serve three different geographic areas of the state. Recruitment for the new programs is underway. Additionally, Commonwealth University has implemented a large number of new scholarships for students who are local to the three campuses.

Review Current Year’s Goal (2022-23)

7. Is your program preparing teachers in mathematics in 2022-23? If no, leave the next question blank.

☒ Yes

☐ No

8. Describe your goal.

This year the university certified 7 new mathematics teachers. Our goal is to maintain this number, or increase it by increased marketing to post-secondary students. Progress may be slow due to the integration of three state universities .New curriculums are being developed, and energies are begin spent on this endeavor.

Set Next Year’s Goal (2023-24)

9. Will your program prepare teachers in mathematics in 2023-24? If no, leave the next question blank.

☒ Yes

☐ No

10. Describe your goal.

During the 2023-2024 academic year, the three campuses at Commonwealth University will maintain the number of Mathematics Education majors that were present for the total of the three campuses in the previous year.

# Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Additionally, Commonwealth University has implemented a large number of new scholarships for students who are local to the three campuses. An additional credential (endorsement in Autism Education, formerly housed at the Lock Haven campus), will now be available to students on all three campuses. Additionally, the Special Education program recently received a grant to develop an accelerated Special Education program, which is planned to be implemented in the Summer of 2023

## Review Current Year's Goal (2022-23)

**7. Is your program preparing teachers in special education in 2022-23? If no, leave the next question blank.**

- ☒ Yes  
☐ No

**8. Describe your goal.**

A goal of ten additional teachers is set for 2022-23. This is a conservative number, but is driven by the July 2023 merger of three state universities. Bloomsburg University is merging with two others, and will be developing coursework that will be offered across all sites. This may cause a slight decline in overall numbers of teachers prepared, but the hope is to boost those numbers with increased marketing efforts for the "new" university. An additional goal is to open more sections of the Introduction to Exceptionalities class in efforts to recruit students to the major.

During the 2023-2024 AY, the three campuses at Commonwealth University will maintain the number of Special Education majors that were present for the total of the three campuses in the previous year. Additionally, the presence of Autism Endorsement at all campuses will give Education majors the opportunity to become credentialed in this area as they complete their teacher certification.

# Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

**6. Provide any additional comments, exceptions and explanations below:**

In July 2022, Bloomsburg University of PA integrated with Lock Haven University of PA and Mansfield University of PA to form the Commonwealth University of Pennsylvania. The Commonwealth University of PA remains accredited by the Middle States Commission of Higher Education and the Council for the Accreditation of Educator Preparation. During the 2022-2023 academic year, faculty reviewed and revised all curricula, including the five-course ESL PA certification add-on. This certificate is offered at both the undergraduate and graduate levels. Students from all three Commonwealth campuses may now earn this certificate.

## Review Current Year's Goal (2022-23)

**7. Is your program preparing teachers in instruction of limited English proficient students in 2022-23? If no, leave the next question blank.**

- ☒ **Yes**  
☐ **No**

**8. Describe your goal.**

Bloomsburg University College of Education will continue a goal of 10 students per year that receive the ESL certificate. With the extra support of the ESL coordinator, more students may find an interest in pursuing the certificate.

## Set Next Year's Goal (2023-24)

**9. Will your program prepare teachers in instruction of limited English proficient students in 2023-24? If no, leave the next question blank.**

- ☒ **Yes**  
☐ **No**

**10. Describe your goal.**

The University has an ESL add-on certificate that is available for all education students to take, but it requires an additional 4 courses. Beginning this year, the advisor for the add-on certificate will be teaching the required ESL course, so she can ensure that all students are aware of the need for, and benefits of, the ESL certificate. The goal is to have five students complete more than the one required ESL course.

# Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

## Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- ☒ Yes
- ☐ No

If yes, please specify the organization(s) that approved or accredited your program:

- ☒ State
- ☒ CAEP
- ☐ AAQEP
- ☐ Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- ☐ Yes
- ☒ No

On this page, review the questions regarding your program's use of technology, and update as needed.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

☒ Yes

☐ No

b. use technology effectively to collect data to improve teaching and learning

☒ Yes

☐ No

c. use technology effectively to manage data to improve teaching and learning

☒ Yes

☐ No

d. use technology effectively to analyze data to improve teaching and learning

☒ Yes

☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All students in the traditional programs are required to take at least one educational technology course as part of their curriculum. Additionally, technology use is woven into coursework throughout the programs. During practicum experiences, candidate use of "digital tools and resources" is assessed through Ohio University's pre-CPAST assessment (Pre-Candidate Pre-Service Assessment of Student Teaching). Additionally, candidates are assessed on their use of "digital tools and resources" twice during student teaching (mid-term and final) using Ohio University's CPAST assessment (Candidate Pre-Service Assessment of Student Teaching). Students are also assessed on technology use in the unit plan and lesson plan assessments in student teaching. Universal Design for Learning (UDL) is introduced to all students in two of the required Special Education courses. An Education Technology minor is also available.

Provide the following information about your teacher preparation program.

## Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All general education teacher candidates are required to take three special education courses. Each course is 3 credits, meets required Pennsylvania Department of Education competencies, and is taught by special education faculty at the University. The first of the three courses reviews all major areas of exceptionality (e.g., visual impairments, intellectual disability, hearing impairments, communication disorders, behavior disorders, learning disabilities) and acquaints the student with social, sociological, psychological, medical, historical, legal, economic and professional aspects of these conditions. The second course provides teacher candidates with a comprehensive overview of the skills, processes, and research-based interventions for linking assessment and instruction in inclusive settings for students with disabilities. The academic core areas addressed in this course include literacy, math, and writing in PK-12 settings. The final course of the sequence reviews current research and the latest techniques for facilitating meaningful interactions with individuals with disabilities. This course deals with the development of evidenced-based skills in effective instructional strategies for students with exceptionalities, creating positive classroom learning environments, and teacher-candidate development of effective collaboration and communication skills. Within these courses, teacher education candidates plan lessons using differentiated instruction and accommodations for effective inclusive practices. Along with these courses, general education teacher candidates participate in field experiences in inclusive settings. Within their general education methods courses, students are required to differentiate in each subject area in order to accommodate PK-12 students with disabilities. Differentiated instruction and supportive strategies are taught in general education methods courses and implemented in their field experiences.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

The three special education courses taught to general education teacher candidates build on knowledge acquired through sequential learning. In the first course, general education teacher candidates are introduced to the Individuals with Disabilities Act (IDEA) and specifically, Individual Education Programs (IEPs) and IEP team membership participation. They review the components of an IEP and their role as general educators in the process. Teacher education candidates are taught the legal aspects of the IEP. In the second course, general education candidates determine objectives based on the needs of students with disabilities. Candidates analyze assessment data to make informed decisions and to set and meet student outcomes that will be part of a student's IEP. In the final course of the sequence, teacher candidates learn effective high-leverage practices and apply these to specific content areas (e.g., literacy, math, science). Through their lesson planning assignments, general education teacher candidates write curricular IEP objectives in academic content areas and provide appropriate accommodations and adaptations to meet the objectives for students with disabilities. These courses prepare general educators to participate as a member of IEP team, and do so accordingly, in practicums and/or student teaching.

c. Effectively teach students who are limited English proficient.

General education teacher candidates are required to take a 3-credit course that is specifically designed to meet the needs of students who are limited English proficient. The course meets the required competencies for instructing English Learners set by the Pennsylvania Department of Education. In addition, candidates are enrolled in two courses that also address the needs of English learners and their families and communities, Multicultural Education and Home, School, and Community.

2. Does your program prepare special education teachers?

- ☒ Yes  
☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

**a. Teach students with disabilities effectively**

All twelve (12) special education courses required in the Department of Exceptionality Programs, Special Education Program of Study are aligned to the Pennsylvania Department of Education (PDE) Competencies and the Council for Exceptional Children (CEC) Standards (Special Education's Specialized Program Association [SPA]). In addition, the Special Education Program meets the four levels of field experience with students with disabilities mandated by PDE and supported by CEC. The intensive coursework and field experiences with students with disabilities focus on instruction in both inclusive and special education classrooms. In order to ensure that special education teacher candidates can effectively teach students with disabilities, they are assessed continuously on knowledge, skills, and competencies through course assignments (e.g., case studies, reflections, research reports, and presentations), exams, and field experiences. In addition, candidates are evaluated through comprehensive program assessments which are conducted in upper-level courses, practicum, and student teaching. The comprehensive Special Education Program assessments are rigorously applied using the CEC standards. They are valid and reliable instruments. They include an Assessment Report (case study), Mock Eligibility Meeting (role play/simulation), Behavior Intervention Plan (project), Individual Education Program (project), Special Education Lesson Plan (implementation/reflection), Special Education Unit Plan (implementation/reflection), and Special Education Student Teacher Evaluation. In addition, candidates are evaluated on their professional dispositions using the Ohio State's Pre-CPAST (in practicum) and CPAST (in student teaching) scoring rubrics. To prepare candidates for their final student teaching evaluation, the PDE 430, a Formal Classroom Observation form (rating rubric) is completed four times during the student teaching placement. All of these comprehensive program assessments have been created and implemented to verify that candidates have acquired the required special education knowledge, skills, and competencies mandated by PDE and CEC. Candidates demonstrate their ability to apply effective instruction with students with disabilities through these performance-based measures (i.e., scoring rubrics). The data from the scored assessment rubrics are analyzed by faculty and help candidates, instructors, practicum and student teacher supervisors, and cooperating teachers monitor student performance and progress prior to their entry in the field as effective PDE certified special education teachers.

**b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**

The special education courses taught for teacher candidates build on knowledge acquired through sequential learning. In their first course, special education teacher candidates are introduced to the Individuals with Disabilities Education Act (IDEA) and specifically Individualized Education Programs (IEPs) and IEP team membership participation. They review the components of an IEP and their role as special educators in the process. Special education teacher candidates are taught the legal aspects of the IEP. Each special education course builds on various components of the IEP and special education candidates apply their knowledge through case studies and mock interviews. In a number of special and general education courses, they write and implement lessons where they differentiate instruction for students with disabilities and provide appropriate accommodations as needed. These courses prepare special educators to be active participants as a member of the IEP team. In one course, special education candidates participate in a Mock Eligibility Meeting. This simulation of an eligibility meeting for students with disabilities is implemented as one of the comprehensive program assessments. Candidates use their knowledge, skills, and competencies acquired through their learning about students with disabilities, IEPs, and eligibility requirements to role-play as various team members in making decisions regarding a student's eligibility and the development of individualized education programs. During student teaching, special education student teachers develop an Individual Education Program for a student with disabilities within their class. In addition, special education candidates during practicum and student teaching are invited to participate in IEP meetings with permission from the parents/guardians of students with disabilities. As well, they collaborate with their cooperating teachers in developing and implementing IEPs in both inclusive and specialized classrooms.

**c. Effectively teach students who are limited English proficient.**

General education teacher candidates are required to take a 3-credit course that is specifically designed to meet the needs of students who are limited English proficient. The course meets the required competencies for instructing English Learners set by the Pennsylvania Department of Education. In addition, candidates are enrolled in two courses that also address the needs of English learners and their families and communities, Multicultural Education and Home, School, and Community.

## Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

It must also be noted that The Pennsylvania Department of Education (PDE) has instituted a "GPA Waiver" through which students can obtain certification with lower passing scores on licensure exams if they have earned a high GPA. Because this "state waiver" is not recognized by Title II reporting on our Institutional Pass Rate, the institution's pass rates appear lower since students do not retake tests to attain a higher score if they have met the graduated state requirements. Additionally, PDE recently paused the use of basic skills tests in teacher preparation. The new integration of Lock Haven, Bloomsburg, and Mansfield Universities of Pennsylvania to form Commonwealth University of PA has added multiple new layers of context into all of the work that we do. Curriculum, policies, and processes are undergoing comprehensive changes. However, as Commonwealth University, all three campuses will seek to continue to develop highly effective new teachers, especially in this time of great teacher shortage in PA, and across the country.
