WHAT-IF SCENARIO

Advisors may use the "what-if" scenario to produce degree audit reports based upon requirements for alternate programs of study or to select "what-if" courses in a student's current program of study. For students admitted to the University prior to Fall 2009 the "what-if" scenario must be used to produce an audit. This will produce an audit in the students current plan based upon Requirements for the Fall 2009 term by retaining the populated program and plan data and submitting the request. Additionally this component may be used to produce an audit in an alternate program of study by modifying the current data. Please refer to your ISIS logon page: <http://www.bloomu.edu/isis/logon> for complete instructions on the "what-if" degree audit report.
